## Arrests in Robbery Attempted Burglary

### 2 Charged After \$250 Is Taken from Man; 3 Captured in Madison

Two arrests in a robbery case and three in a burglary attempt were reported by Granite City and Madison police during the weekend. Ten other theft reports were investigated.

Robbery charges were filed Saturday by Granite City police against Donald Dayton, 18, of 3904 Lake drive, and Phillip Scofield, 26, of 2017 Lee avenue, based on a complaint by James Alsop, 51, of 2516 Adams street, who said he had been robbed of \$250 to \$300 Thursday night in the 2000 block of Iowa.

Also, a Granite City Steel Co. employee, said he had met the pair at a tavern and lunch room near the mill gate on 20th street and had left the place with them. They were joined by a third man, and the robbery Alsop said, took place in an area between two homes in the 2000 block of Iowa.

He said a gun was placed in the back, but police said they had no evidence that a weapon was used. The third man has not been located.

**Break-In Attempt Charged**  
Three men found by Madison police early Friday morning near a business firm where an attempt to break-in had been made were named in warrants charging one of them with attempted burglary and the other two with attempted burglary and "facilitate" an attempted burglary.

Police reported they booked Harry Snell, 21, of 2014 McCasland avenue, Madison, on an attempted burglary charge, and named Harold Bullentine Jr., 27, of 2124 Delmar avenue, and Jerry Nishke, 23, also of the Delmar avenue address, on the other charge.

Snell was captured by Madison police about 3:30 a.m. at the rear of the City Center, a billiard parlor at 705 Madison avenue, Snell, police said, ran from a police officer in spite of a warning shot, only to run into other officers who had surrounded the building.

## 13 Undergo Surgery At Local Hospital

The following are recovering at St. Elizabeth Hospital from surgery which they underwent since Thursday:

Delbert McMissick, 2976 Iowa street; Brenda Milton, 2153 Washington avenue; Jimmy Leckson, 55 Loe Wright homes, Venice; Agnes E. Jones, Collinsville; Terry Pace, 4836 Warnock avenue; Glenda Barnett, 1030 Reynolds street, Madison.

Lawrence Markham, Rural Route Two; Sidney Mosby, 110 O'Hare street; Pearl Goss, 1706 Sixth street, Madison; Virginia M. Wagner, Collinsville; Josephine Ferland, 2213 East 24th street; Delores Hutz, 2401 Kirkpatrick homes; Alberta Burton, 6 Tully lane.

Marine Cpl. Gary L. Skaggs, 19, who was seriously wounded in Vietnam on Jan. 19 and underwent amputation of both legs, has been awarded the Bronze Star Medal with "V" device for meritorious service as a squad leader in Vietnam from Nov. 28, 1968 to Jan. 19.

He also received his second Purple Heart Medal for wounds received from visiting the Marine Corps, 2713 Washington avenue, near the hospital, during the past two weeks at the Philadelphia Naval Hospital. Gary asked me to thank everyone for their cards and letters which certainly help to keep up his spirits," she said.

Mrs. Counts commented that the young serviceman "still is in an awful lot of pain and will undergo surgery later this week. She said a physician reported the severe infection which prompted amputation of Gary's second leg in Japan was now under control.

"After they close the shrapnel wounds on his back and thighs, kept open to wound further infection, the healing process is expected to begin," Mrs. Counts explained.

The doctors also told me that Gary will have legs and will walk again in six to eight months. The short period of time for convalescence and in the hospital and keep them really amazed her, she said.

"People in Philadelphia are very active toward helping the men in the hospital and keep them well informed and as comfortable as possible," she noted. While there, Mrs. Counts stayed at the Navy Mothers Club, which she described as "just wonderful." Arrangements for her stay there were made by the Quad-City Navy Mothers.

## Pontoon Village Reworking Sewer Plan

### Board Hears Progress Reports on Drainage And Sanitary Systems

A report on progress of proposed plans to install storm water and sanitary sewers in Pontoon Beach was the principal topic at the village board of trustees meeting Thursday evening.

A series of letters between Thomas Staicoff, village president, and U.S. Cong. Melvin Price (D), East St. Louis, concerning flooding and hazardous water conditions in the village area was reviewed by the board president.

An explanatory letter, sent to Cong. Price by Edgar A. Patrick, vice-chairman of the Pontoon Beach Public Works district and chairman of the district's sewer committee, also was read.

The water district vice-chairman noted that Long Lake, which is in the heart of the community, could be of great recreational value but instead is viewed by most as an "open sewer and unfit for development."

"Under authority granted by state statute and established by referendum, Pontoon Beach Public Water district after successful establishing and operating a water distributing system has for several years tried to cope with the serious sewage problem."

Preliminary Survey  
"We have, at the expense of the district, caused a comprehensive preliminary engineering survey to be completed," Patrick said. "This survey indicates that a sewer system is practical from an engineering viewpoint, but that in order to maintain standards acceptable to such planning authorities as the East-West Gateway Coordinating Council and to be consistent with the village's long-range planning and to provide room for natural growth plus the cost of the sewer system is the very project itself, the size of the necessary revenue bond issue would make the cost per user more than could be afforded and therefore unsaleable."

Patrick said that using the preliminary survey the Pontoon Beach Public Water District in the past has applied to HUD for financial help.

In his communication, Staicoff informed Rep. Price that the Pontoon Beach Public Water District has on file with the Department of Housing and Urban Development a preliminary plan for a sanitary sewer system. He noted that the preliminary sewer plan work was done at the expense of the water district and no government funds were involved.

"The problem of water is continually worsening," Staicoff said. "We have many new brick homes in the area and the septic tank system cannot function properly, causing a definite health hazard. The village has been very strict on inspecting the septic tank plans on all new construction to insure that they will function properly. Frankly speaking, they cannot work properly due to adverse soil conditions."

Noting that the growth of population and homes in the Pontoon Beach area "has been phenomenal in the past four years," Staicoff pointed out that the village itself is coping with the problem.

Barney Fraundorf, former Madison county sheriff, today called for cooperation among local police and state and county authorities in an attempt to halt the recent wave of shoot-outs in railroad yards at Eagle Park Acres.

He suggested that the authorities, along with railroad detectives, discuss the problem with residents of the area in an attempt to resolve the situation. Residents of the community, including children, are being endangered.

In a letter to area mayors and county authorities, he suggested that Eagle Park Acres residents be employed as watchmen for the area, that the rail yards be better lighted and that resources of the FBI be used to prevent looting from rail cars which have led to the shoot-outs.

## MORE ABOUT Pontoon Village

able to financially provide sewer service to residents.

"I consider this of utmost importance," Staicoff wrote, "so we can conform to area planning. Even if the village were to pursue a sanitary sewer project, it would probably be outmoded within five years," he told Price.

Further elaborating on the situation in Pontoon Beach, Patrick informed the congressman that the village comprises about one-sixth of the area and about one-fourth of the population of the region served by the Pontoon Beach Public Water District.

"The soil of this area is mainly of a type of gumbo and is unsuited to the use of septic tank operation in large numbers. Storm water and sanitary sewage mingle together and ground and eventually runs into Long Lake."

"Pump at Night"

"Some residents have surreptitiously installed overflow lines from tanks to lake and many pump liquids at night into the side drainage ditches. Local authorities are inclined to be lenient because they have no alternate suggestion."

Patrick enclosed photographs taken on Feb. 10 explaining that was 11 days after any appreciable amount of rainfall. He pointed out they did not represent a commentary of lack of storm water drainage which could and should be handled by local government authority, but to show the dangerous situation existing where septic systems are inundated to this degree for long periods.

"There is constant threat of hepatitis and dysentery. Stalling grade school was closed for several days in 1965 because hepatitis cases in the area were reaching an alarming level," Patrick wrote. "Most doctors suspected that the mixing of raw sewage with the water supply as being a probable cause. Every year since we have had additional cases."

"Hearkening at First"

"Our reception was heartening when we applied to HUD in June 1968 for financial help which would make the project possible. I was personally encouraged to believe after a conference in Chicago, that our application would merit a very high priority."

"However, with the exception of a visit by a HUD engineer who surveyed the area with us and made inquiries as to planning and ethnic makeup of the population, we have had no reply. I am afraid that the elapsed time indicates our need for help," Patrick informed Cong. Price.

Staicoff told the trustees that letter forwarded to him by Price from HUD noted the department was aware of the need for a sewer project, but that funds used to support the Water and Sewer Facilities Grant program are extremely limited, with many more applications for assistance received than can be approved.

Application Retained

Francis D. Fisher, HUD regional administrator, said, "We are at this time still retaining the application on a continuing evaluation basis. We regret, however, that we are not in a position to be optimistic concerning the progress of this application."

He is an aircraft maintenance officer for AVSCOM, in St. Louis.

## MORE ABOUT Arrests in Robbery

Staicoff said that Patrick's letter was dated the same day as the communication from HUD to Cong. Price and commented that he viewed the situation "more optimistically now that the U. S. Representative was interested in conditions in the village area."

In other business Thursday evening, trustees authorized installation of three street lights at Laura avenue and Gaslight Walk; Tulip court and Lily avenue; and Lily court and Lily avenue.

Trustee Richard Jones also proposed making a study of street lighting needs along Pontoon road from the village limits to Highway 111.

**MORE ABOUT  
Voters to Ballot**

ing a national and state election in which voter registration was required. At that time, voting in a city election did not require registration with the county clerk. The law since has been changed.

**Not Enough Time**

Protesting aldermen also pointed out that without the legal opinion, a notice of election could not be published. Since Oct. 21 was the final date for publication of such a notice under law, and the council did not meet again before that date, the issue was delayed beyond deadline dates for placing the matter on the Nov. 5 election and won approval, the reduction would have affected this year's aldermanic elections. As it now stands, even if the issue approved April 1, a reduction in the council membership could not take place for at least two years. State law provides that where reductions are made affecting city officials, the officials then in office serve out their terms.

This particular statute, in fact, involves two Granite City wards in the April 1 balloting where there presently are no "holdover" aldermen because of restricting necessary to reduce the city's eight wards to seven in conformance with population requirements. Wards Two and Five, where this condition exists, also will elect one alderman each to new four-year terms, thus resulting in three aldermen for those wards for the next two years.

The Backers of the move to reduce the council membership by one alderman in each ward contend the car would save the city \$15,000 per year. They said the reduction would cut the current four-year cost of aldermanic salaries to about \$75,000 from the present cost of about \$150,000.

**House Burglary**

Taken were two coin collection sets, five men's watches, a table model radio, two silver bowls and other items. One of the watches was on a key chain containing an elk's tooth. Ransacked were the living room, dining area and all of the upstairs bedrooms. Mud was left on the living room rug and the stairs.

cause of the bus strike. Central junior high, with 605 pupils, had only 90 absent; Coolidge with 1271 pupils had only 98 absent.

Grigby with 783 had 91 absences and Prather, with 750 pupils, had 107 absent. School officials noted that absenteeism at Prather today was less than it was last Friday when buses still were running. The snow storm kept 150 out of classes, they said.

At the senior high school absenteeism this morning totaled 315 pupils which officials said is about 55 higher than normal. The high school has an enrollment of 2797.

Ray Draglich, superintendent of schools in Madison school district 12, said absenteeism was normal in both elementary and high schools. He said the district's several bus routes transport pupils only from the West Madison, Eagle Park and Bend Road areas.

Venice school, which transports 345 of its 730 pupils reported attendance normal in the high school, but off about 15% in the elementary grades. Bulk of the elementary absenteeism was in the primary grades.

At least 2000 workers who depend upon bus service were affected by the strike.

"Final Offer"

In a statement issued yesterday afternoon, Bi-State Transit officials said:

"Before the strike, we made a wage settlement offer through the federal mediator which we believe to be a good one."

"Besides an increase in wages, this offer included many other employee benefits. The Union negotiating committee refused to take this offer to the membership and we believe that the members should have had an opportunity to vote on it."

"We are standing by and are ready and willing at anytime to meet for clarification of the provisions of this offer. We assume that if any problems of clarification come up that federal mediators will call a meeting."

The proposal was made early last week following a month-and-a-half of contract talks to replace the three-year agreement which expired last Friday midnight. The talks between the Union and Bi-State Transit System were joined early last week by the representatives of Federal Mediation and Conciliation Service.

Ten days after the union membership voted overwhelmingly for the strike.

John C. Reine, president of the Transit Services Corp., said Friday, "The last and final offer we made to the union called for an increase of 45 cents an hour in wages over a two-year contract period and included numerous improved employee benefits. This proposed settlement is well in line with other recent wage agreements made in major transit systems throughout the country."

"We have made every effort to have the contract extended in order that transit service to the public may be maintained and negotiations continued until a final settlement is reached, with the understanding that any wage increase agreed upon would be retroactive to the expiration date of the present contract."

"It is difficult to understand why the Union is proceeding with this strike action under these circumstances — particularly in view of the fact that the Union's constitution and general laws specifically encourage a settlement of all disputes by arbitration and require that arbitration be offered before a strike can be sanctioned by the International, their parent Union."

# Miller State Champion, GCHS Wrestlers 14th

Bob Miller, 106-pound wrestler for Granite City high school won the coveted title of state champion Saturday at Champlain, defeating Vince Gutierrez of Calvin Park 8-4 in the final bout. His four victories provided 15 points for the Warriors and enabled GCHS to tie for 14th place.

In Miller's championship match he had to come from behind after losing two points on a takedown. He tied the score on a reversal and then lost two on a reversal by his opponent in the first round.

In the second period, he went ahead on two predicaments, and in the third period he kept command, coming from underneath for an escape and then scoring a reversal.

Coch Bill Schmitt related to the Press-Record, "Many times Miller had his opponent in near predicaments but just could not score. However, from the second period he had control of his man and wrestled like a real champion."

"It was pleasant for me and Granite City when Miller won but I think that above all it was the businesslike way he approached each match that impressed me."

"He continued to tell me that he was going to win, and I continued to give him my encouragement, as well as the four beaten in their first matches."

"I don't think anyone believed it would happen, and yet Miller was sure he could do it. The confidence he had in himself was his biggest asset."

"Bob started out by getting his fifth consecutive pin in the first round of the tournament, beating Steve Harper of Moline in 3:25. His second match wasn't quite so easy. It took overtime to beat Fred Frey of Joliet Catholic 9-5."

"Miller had a three-point lead going into the last period of regulation time against Fey but then blew it. To top that off, he had to come from one point behind in the overtime period to win."

"His third win was over Bob Meyer of New Trier East, 6-2. He took the lead in the first period and wasn't scored on till the last few minutes of the match."

Ties Fuchs' State Record Miller finished the season with a record of 40 wins and four losses to tie a state record by Bill Fuchs two years ago. Both won 40 bouts in one season.

Despite tough defense, Gary Simpson (32) makes the outside jump shot look easy. Simpson led the Warriors to a 69-64 victory over Cahokia Friday at Memorial gym. Comanches in the picture are Charles Robinson (25) and Phil Kozart (51).

GARY SIMPSON did it Friday evening. He broke the school's basketball scoring record, as the Granite City high school Warriors downed the Cahokia Comanches 69-64 in a non-conference tilt at Memorial gym here.

The win closed the Warriors' regular season with a 20-5 record—one of the best in several years.

The high scoring Simpson collected 33 points for his evening's work and put his season scoring total at 687 points in 25 games. Rich Williams, now a basketball coach at Coolidge, held the old one-season record of 638 points in 32 games.

Simpson advanced his career total to 1449—but is still 155 points short of the career record set by Williams of 1604.

It was quite fitting that Simpson would end his Granite City home court career playing before a near capacity crowd. And it couldn't have been more enjoyable to the fans to see Simpson play one of his finest games.

He had a hot hand from all spots on the floor—and as Simpson goes, the Warriors go. He also had several assists and came down with his share of rebounds. He led the team with four assists.

All was bright in Memorial gym, however. Midway in the second quarter, John VanBuskirk injured an ankle and was unable to finish the game. It is expected that he will be ready by Thursday, if the Warriors defeat Roxana in the first game of Regional competition Tuesday evening.

Couch Don Detering commented, "I thought at first that John may have fractured his ankle, but it is a strain. It is very doubtful that he will play Tuesday evening, but he should be ready by Thursday."

Friday evening, the Warriors led the Comanches 18-16 at the end of the first quarter, stretched the lead to 37-30 at the half, but lost the lead to a 42-40 margin in the third quarter.

As a team, the Warriors sank 26 of 64 field goals and hit 17 of 24 free throws. In comparison, Cahokia hit 23 of 53 field goals and 18 of 24 free throws.

Scorers for the Warriors were Simpson 35, Dave Melzer 13, Roger Belshie seven, Steve Harris six, Jeff Boyles four, Rich Hutchings two.

## Girl Scout Week to be Observed Here Mar. 9-15

Girl Scouts throughout the country will celebrate the 57th birthday of Girl Scouting during Girl Scout Week, March 9-15. The scouts will attend church services on Girl Scout Sunday, March 9, and during the week, troops will recognize the Girl Scout Birthday, March 12, and recall the history of the founding of the movement in the U. S. by Juliette Low in 1912.

Today, one out of seven girls, or about 3,000,000 girls between the ages of seven and seventeen are registered in the Girl Scout organization, one program with four age levels. In the River Bluffs Girl Scout Council, there are 13,320 girls being served in 840 troops throughout a wide area including the counties of Madison, Monroe, St. Clair, Calhoun and parts of Macoupin, Randolph and Clinton counties.

The Girl Scout program is built on values expressed in six foundation elements: Promise

and laws, service, troop management, citizenship, international friendship, health and safety. This Foundation promotes all program through activities related to the arts, the home and the out-of-doors. The girls plan their own program with the leaders' guidance, encouragement and training.

## Plastic Gas Pipe Being Used Improperly Here

Plastic pipe should not be used to transport natural gas in basements or above ground outdoors, it was pointed out today by Carl Mathias, Illinois Power Co. Granite City service area manager.

Some homeowners and contractors in this area have used plastic pipe in basements and above ground outdoors in order to extend natural gas service outdoors from the basement, Mathias said. In most instances, this has been done to operate natural gas post lights and barbecue grills.

These installations violate standards regarding gas piping materials as established in various national codes which the electric and gas utility follows, Mathias said. Among the codes are the National Fire Prevention Code and the policies established by the American Gas Association.

Such installations should be made with steel or copper pipe, using a shut-off valve so the outdoor use can be closed down without interrupting service to the rest of the home.

Plastic pipe may be used outdoors below the ground if steel or copper pipe is used to bring service above the ground, Mathias explained.

When such installations are brought to the company's attention, natural gas service is discontinued until the unsafe condition is remedied, he said.

## Good Samaritans Aplenty, Family Finds After Fire

An "angel of mercy." This is the way Mrs. Louise Glass describes one of the numerous "good Samaritans" and well-wishers who assisted her and her family during a fire loss this winter.

Mr. and Mrs. Harry Glass, 3208 Rodgers avenue, lost their home and personal belongings while Mrs. Glass, who is a Brownie leader, and her daughter, Dawn, were attending a Girl Scout "festival of giving" program to aid the needy at Christmas time.

When they arrived home, "everything was gone." The fire was left in a state of shock and disbelief. But before the week was over, cash, clothing, furniture and household items began arriving.

Mrs. Glass attributes the response to Press-Record coverage on their plight, to the efforts of their many friends and to a generous public.

Aided by friends, strangers "We thank each and every person who offered support in any way. Many of these people are strangers," she points out.

Because of their misfortune, the Glasses feel they have "gained much more than we ever possessed in the love and understanding of our fellow men."

The "angel of mercy" was a senior citizen of Granite City.

## Student Council To Aid GCHS Car Identification

A five-point program has been developed for implementation of a Granite City high school student auto identification program when it goes into effect with the start of the 1969-70 school year in late August.

The policy, which has received school board approval, follows:

1. All students driving cars to school must register them and display a student decal number.
2. Sale of window decals will be through the GCHS Student Council at a cost of ten cents.
3. Decals must be displayed on cars two weeks after the opening of school.
4. Students who do not display a decal on their cars will receive a warning on the first occasion. Parents will be notified on the second occasion. For additional violations, the student would be suspended until his parents act as guardian come to school.
5. Board members and school employees will be provided with decals.

Visitors to the school are to use an area for visitor parking on the GCHS front parking lot after the program goes into effect.

## Quad-City Area Covered 4 Times During Ice Age

Geographical formations prevalent in this section of Illinois were discussed by R. E. Yarbrough, an instructor in the Earth Sciences Department at Southern Illinois University-Southwestern campus, who spoke at the Granite City Optimists' luncheon meeting Thursday in the Rose Bowl restaurant.

Illustrating his talk with slides, Yarbrough pointed out that formations in the surrounding area result from ice ages which covered the area four times and created a flood plain—the American Bottoms.

The region he described stretches from Alton to Chester in southern Illinois. He noted the Quad-Cities are located in the widest part, which narrows considerably south of Dupe.

Before glaciation, the terrain was rugged with steep hills and deep valleys, Yarbrough said. Ice filled the crevasses and wore off the sharp peaks and glaciers moving down from Canada eventually melted leaving vast deposits of mud. Wind erosion then removed fine particles (loess), blowing them eastward to form the rich agricultural land along the Mississippi and Missouri rivers.

Yarbrough noted that the high cohesive nature of loess particles explains why highway cuts on interstate highways east

of St. Louis usually are vertical, cut at a 90-degree angle, as opposed to other regions where highway engineers are forced to bank cuts at 45-degrees to avoid cave-ins or erosion.

Repeated flooding also produced rich bottom land, excellent for crops, while in a few nearby sections above the flood line, the soil remained sandy.

One five mile area in the Peoria region provides perfect sandy soil conditions to produce melons, Yarbrough explained.

North of Peoria in the Wood River, East Alton and Roxana area, also above the flood line and with the same sandy soil, induced industry to establish there. Convenient access to the river still was available without the hazards of repeated floodings, he noted.

Chester E. Baker, program chairman, introduced the guest speaker. Thirty-six members attended and five prospective members were guests. The latter included Gerald Shaul, Tom Signall, Emerald Dawes, Jack Mulach and Robert Thompson Jr.

A brief memorandum was conducted by Fred Cunningham, president, in tribute to Vernon Thurg, YMCA executive, who died unexpectedly last Monday. Most club members attended the memorial services Thursday morning.

## Man Caught, Charged In Restaurant Breakin

Jack Lee Durham, 25, of State Park Place was held in the county jail at Edwardsville on a burglary charge Friday after deputies reported they captured him leaving a restaurant near Granite City through a restroom window.

Deputies said Durham was arrested as he attempted to flee from the Family Restaurant on Highway 162 near Granite City. Chief Deputy Sheriff Frank Schmidt said deputies were driving by the restaurant about 2:30 a.m. when they noticed the front door had been pried open. One deputy went in the door and the other went to the back of the building. The deputy inside saw Durham crawling through the window and called to the officer outside who apprehended the man.

## GC Man Defendant in Auto Accident Suit

Charles Reagan of Granite City is named defendant in a \$12,000 damage suit filed in circuit court at Edwardsville by Robert Chapman.

Chapman alleges in the complaint that he suffered permanent injuries Oct. 5, 1968, when a car driven by Reagan ran off the road and overturned in Jackson county. Chapman was a passenger in the car, he states. The suit asks for a jury trial.

## THE TRANSIT STRIKE

We are sorry that thousands of bus riders in our community are being inconvenienced by a strike of bus operators and maintenance workers. We particularly regret the hardship that the strike has caused thousands of school children and others in our community who are completely dependent on public transportation.

## In our opinion, the strike should not have happened

### HERE'S WHY:

1. The wage settlement we offered to the Union provides for a 45-cent-per-hour increase over a 2-year contract period along with numerous improved employee benefits at a total increased cost of approximately \$1,400,000. This offer is well in line with other recent wage agreements made in major transit systems throughout the country. However, the Union's negotiating committee was not willing to submit this offer to a vote of their membership.
2. We also offered retroactive payment of any wage rate increase agreed upon and to extend the contract beyond the Friday midnight deadline so that transit service to the public could be maintained and negotiations continued. The Union's negotiating committee refused this offer although it has been the practice in prior contract negotiations.
3. The collective bargaining dispute can be resolved, we believe, either through continued collective bargaining or by means of suitable fact finding or arbitration proceedings. In fact, the Union's Constitution and General Laws encourage a settlement of all disputes by arbitration, and require that arbitration be offered before a strike can be authorized.

## Attention Weekly Pass Riders

During the current transit strike you should retain your bus passes. They will be good for an equitable credit when you purchase a pass after the strike is over. Remember, keep your pass and use it as a credit toward your next pass purchase.

Thanks for your co-operation.

## ONE-WAY SIGNS, TREE WORK FRUSTRATE DRIVER

To the Editor:

To get downtown, the only streets available in East Granite are State and Delmar. Iowa and Grand are one-way going the opposite direction.

Streets available coming back are Iowa and Grand. Naturally, if you live east of Madison avenue, you would take Iowa and Grand.

But what happens? The city can't find any other trees to take down, so they block Iowa and Grand. This is necessary.

## DISGUSTED TAXPAYER

To the Editor:

After reading a letter printed in The Forum Feb. 24 about the Chouteau township road commissioner, I believe that needs a few well-deserved kind words.

I am a Chouteau township resident who knows he is doing a very good job as road commissioner.

There have been many, many streets completely renewed, including the street I live on. Even these roads have water running in them as much as we have been having lately.

During such heavy rains, I know his family has to wade through water to get to their house. He has been working on other roads before doing anything to his.

Jim Estes has done a lot to better the roads in Chouteau township — when he was permitted him to do so. There was nothing done for years before him.

As for the drainage problem, which we all have out here, what can a road commissioner do about that?

## MITCHELL WOMAN

To the Editor:

I wish to thank the Press-Record, Aldermen Johnson, Boyd, Dallas, Moerlein, Green, Rutledge, Davis, Korman, Robertson, Barash and Barash, and also Rev. Paul Surber for their gracious support of a request for funds to send me to a USO National Council meeting.

This is a plea to all not to send funds to me but to support the United Fund, which helps not only the USO and other national agencies, but also local agencies such as Protestant Welfare and Catholic Charities, which work in this community feeding, clothing and giving spiritual and material comfort to those in need.

## CAMPUS TALKS BY REDS PRECEDED STUDENT RIOTS

To the Editor:

In this day of more and more so-called academic freedom for our students being discussed and advocated, it was refreshing to read the report of Chief U. S. District Judge Roy W. Harper concerning the five-year sentence handed down to a member of the Student Government for his part in the attempted fire-bombing of the ROTC headquarters at St. Louis' Washington University.

It is a pleasure to see Judge Harper's remarks.

In my opinion, some of the faculty members in some of our schools are more responsible for the turmoil in this world than our youngsters.

One paragraph of the Feb. 21 article stated, "The charge that recalled the four-month trial over which he presided in 1964 when five Missouri Communist leaders were convicted of conspiring to advocate overthrowing the government by force."

The charges were dropped later as a result of a U. S. Supreme Court decision in a similar case, Harper said, testifying at the trial "set out the pattern of the Communist party and that seems to be the pattern of the groups you mentioned."

"So," the judge told you, "let me remind you that you live in the greatest country the sun ever shined on."

During our more recent past history, we have witnessed a deterioration both morally and spiritually in our society.

I believe that much of this can be traced to U. S. Supreme Court decisions permitting questionable character and even known Communists to speak and even teach on our campuses.

I blame much of the unrest in our society on some of the teach-ins being held at our universities.

During the summer of 1967 I attended the one held at the Edwardsville branch of the SILL. The war in Vietnam was supposed to be the main subject of discussion.

However, during the day, I heard many eloquent speakers condemning our so-called racism and poverty, and foreign political imperialism.

It seemed to me that the speakers saying good things about our country were numbered about 3 to 1.

It seemed to me that Professor Bernard R. Berenson and Professor Riedelberger had the most active roles in managing the teach-in, which lasted most of one day.

There is one thing about the teach-in that I will never forget.

After hearing one of the professors, who should know better, praise the Soviet Union and its satellite for the wonderful way of life in those areas, I asked the speaker when those countries were going to permit their people to hold free elections and vote on leaders of their own choosing.

The only answer I received was one informing me that we really do not have free elections in America.

## GIVEAWAY APPROACH ENCOURAGES DEPENDENCE

To the Editor:

I am opposed to the new free lunch and cut-rate program.

If the government is going to reimburse the schools they are discriminating against those who can afford to buy lunch, and in a roundabout way they are discriminating against those who are receiving them.

In the case of the one who is paying full price, he is being penalized for being a do-gooder.

In the case of those who can't afford it, they are being penalized by not being able to pay for their children's education.

The child could go to feel inferior, and this would add to our woes.

Why won't government programs benefit the whole school, not just a few people?

If the government is going to pay a lower paying job or quit and stay home with my kids. God only knows, they get away from us too soon.

Most parents want to do good and bring their children up to do good. But if you have to pay for your child and the other guy gets his for nothing, who is the smartest?

This will help someone by giving to them. You've got to help them to help themselves.

Any giveaway program won't help. The more you give, the more they expect.

There are laws against discrimination, but who draws the line as to what is discrimination and what's not?

Prayer in school is discrimination. It is discrimination against those who are not of that faith.

## Willaredt-Williams Nuptials At St. John United Church

Miss Kathleen Williams, a daughter of Mr. and Mrs. Roland B. Williams of Edna, Tex., and Gary R. Willaredt, whose parents are Mr. and Mrs. Raymond Willaredt, 2509 Lynch avenue, were married Saturday in an evening ceremony at St. John United Church of Christ on Nameoki road.

Lighted candles in candelabra in the aisle and before the altar adorned with arrangements of white chrysanthemums and pom poms, together with white bows on the pews, provided the setting for the 7:30 ceremony performed by Rev. Paul Surbey.

Mr. Williams gave his daughter in marriage. She wore a fitted gown of white peau de soie and Chantilly lace accented with a bow in the back. The bodice and long sleeves were of lace, and instead of the traditional veil, the bride wore a shoulder-length lace mantilla and carried a cascade bouquet of white roses and pale yellow pom poms with white velvet ribbon.

The only attendants were Mrs. Myra Robertson, matron of honor, and Larry Anderson, best man. Edward Robertson, the bridegroom's brother-in-law, and Ronald Yates served as ushers.

Mrs. Robertson was attired in a floor-length Empire gown of light yellow crepe styled with a lace-trimmed bodice and long sleeves. Her flowers were white and yellow pom poms with long yellow streamers.

Music for the wedding was furnished by Raymond Voorhees, vocalist, and Mrs. Irene Barwick, organist.

The bride's mother wore a melon pink knit suit and bone accessories. Both had white cymbidium orchid corsages. A reception was held at the American Legion hall after the ceremony. The couple will honeymoon in Chicago.

The former Miss Williams was graduated from the Belleville Township high school and attended the University of Illinois where she became a member of Phi Mu sorority. Mr. Willaredt, who is employed as a state trooper in Hillsdale, Ill., was graduated from the Granite City high school and served two years in the Army, one year of which was in Vietnam.

The couple will live in Hillsdale.

## Area Choral Group to Sing With St. Louis Philharmonic

The Southern Illinois University-Southwestern campus Community Choral Society and the SIU Concert Chorus will appear with the St. Louis Philharmonic Orchestra Thursday at 8:30 p.m. at Kiel Opera House.

Prof. Leonard Van Camp, director of choral activities at the southwestern campus, is rehearsing the combined choruses to do Brahms' "Song of Destiny" and Kodaly's "Missa Brevis." Theodore Avitahl, director of the Philharmonic, will conduct the performance.

A native of Rumania, Avitahl lived in Brussels two years before coming to the U.S. in 1963 to direct the St. Louis Philharmonic. This is the first time the orchestra has invited a choral group to perform since he became its conductor.

Prof. Premazzi of the SIU-SW choral groups perform "Ivan the Terrible" last year with the St. Louis Symphony. Avitahl became interested in having Van Camp's singers perform with the Philharmonic. "Max Risch

(personnel manager of the Philharmonic) and I liked what we heard and were anxious to work with them." 20 communities in this is the 18th season for the St. Louis Philharmonic, second oldest in the country, according to Risch. The new St. Louis Philharmonic is the oldest, he said.

The 60-voice SIU-SW choral has appeared widely in the two-state area, been featured on television and performed under such distinguished guest conductors as Roger Wagner, Daniel Pinkham and Abram Stasevich. Members are selected after intensive auditions.

The Community Choral Society includes singers from more than 20 communities in the area. Teachers, salesmen, stenographers, electricians, engineers, nurses, and many other businesses and professions are represented, as well as students, faculty and staff.

While they last, Risch said, tickets are available for Thursday's performance by writing P.O. Box 591, St. Louis 63188.

## State Air Board Plans to Outline Uniform Controls

Announcement of a meeting March 12 in Chicago to discuss a uniform control program involving air pollution was made Thursday at Springfield during a meeting of the state Air Pollution Control Board.

The meeting will be to outline federal requirements and to obtain local views.

Robert French, chief of the board staff, said the Air Quality Act of 1967 by the federal government places responsibility to set and enforce standards in the hands of state agencies.

French explained, it was pointed out that the state of authority in these areas is not clearly defined.

The board adopted rules concerning the operation of meat smokehouses. Smokehouses using more than 10 pounds of wood as fuel must be equipped with controls to minimize pollutants in the gas to within 0.1 grain per cubic foot of exhaust.

Burning of railroad boxcars has been in violation of pollution regulations. A few salvage operators have ceased open burning. Their salvaging operations have been confined to burning the discarded equipment.

During the week, seven salvage firms suspected of open burning were given enforcement notifications. The board emphasized the need for uniformity in enforcement. Future open burning will be in violation of regulations and salvage firms that continue this practice will be subject to penalty. A federal grant of \$152,700 for demonstration of alternative methods of salvaging boxcars was just received by the industry. Clarence W. Klassen, technical secretary, explained.

In other action, the Air Pollution Control Board deferred a request by Moss-American Co., Madison, for a hearing involving disposal of wood waste.
